Sugar (WSC):	**8.18**	ADF:	**37.84**
aNDF:	**55.29**	RFV:	**100**
RFQ:	**115.78**		

Inspector Notes

Really nice line of mixed species hay I would say 60% beardless wheat. It has had some rain on it in three separate falls. They cut it a little bit before flowering so it took a little bit longer to cure but it's well cured now. Well shedded, excellent quality bales this hay will not disappoint and I'm sure it will feed test well a lot of leaf and feel soft to touch.

Visual Inspection

Year of Harvest:	2026	Month of Harvest:	Nov
Visual Colour %:	50%	Leaf Retention:	
Leaf Texture:	Soft	Smell:	Good Hay Aroma
Stem Width:	6mm	Cutting Stage:	Before or at flowering
Weeds:	1-5%	Weed Species:	Rygrass
