Sugar (WSC):	7.15	ADF:	32.34
aNDF:	41.21	RFV:	144
RFQ:	151.41		

Inspector Notes

Really leafy line of lucerne. The only reason I put it in utility was because of the moistures. It does have high moistures and needs to be watched and fed out as soon as possible. Otherwise, it's a really high leaf percentage. Second cut lucerne excellent shedding bar weight.

Visual Inspection

Year of Harvest:	2025	Month of Harvest:	Dec
Visual Colour %:	50%	Leaf Retention:	Very Leafy and Excellent
